

Resource Guide

Multisystemic Therapy (MST)

Service Description: A licensed intensive evidence-based treatment process that focuses on the effects of the diagnosed behavioral health disorder within the environmental systems (family, school, peer groups, culture, neighborhood and community) contributing to, or influencing the juvenile's involvement, or potential involvement in the juvenile justice system. This therapeutic modality uses family strengths to promote positive coping activities, works with the caregivers to reinforce positive behaviors, and reduce negative behaviors, and helps the family increase accountability and problem solving.
